MEMORANDUM FOR: Director of Medical Services

SUBJECT : Request for the TDY Assistance of Dr. [REDACTED]

25X1A

1. The final comprehensive exercise of the current running of OTR's Basic Operations Course is scheduled for June 1973. The overall objective of this exercise is to provide an opportunity for the trainees to center their efforts on one all-encompassing training package which requires the use of most, if not all, of the principles, techniques, and skills to which they have been exposed during the course. Incorporated in the complex exercise scenario are special activities, foreign intelligence, and counterintelligence requirements which the trainees meet through the application of sound operational judgment, tradecraft, operational and intelligence information reporting, and technical communications and surveillance methods.

2. In gearing to meet the rather extensive staffing requirements for this exercise, it is obvious that officers experienced in the subjects and activities covered as well as knowledgeable of trainee performance evaluation techniques provide the best challenge and most rewarding training experience. We have also found that an infusion of faces and personalities new to the trainees enhances the realism of the scenario and contributes significantly to the overall value of the exercise.

3. As a former highly enthusiastic trainee in the Basic Operations Course himself, Dr. [REDACTED] is uniquely qualified to bring professional assistance to the exercise. Subject to your approval and his acceptance and availability, we request that he participate in the exercise scheduled for 17 through 28 June 1973.
